THE RUPTURE SEAL

Q.What is The RUPTUREseal™ line of technologies?

A.It is a line of leak-stopping devices currently available in 3 convenient sizes. A simple and quick plug system for various holes.The RuptureSeal™ can address holes as small as 4mm (5/32in), as large as 64mm (2.5in) in diameter, and gashes up to 100mm (4in) in length. However, we are always improving our capabilities and further sizes are under consideration. If you have a requirement, let us know!

Q.How fast does this technology work?

A.The RuptureSeal™ deploys in seconds, even faster with training and experience.

Q.How long will it last for?

A.Both devices are temporary measures intended to last upwards of 10 hours in the rupture.

Q.What chemicals are compatible with the RuptureSeal?

A.Please see this PDF document to check the RuptureSeal's compatibility with different types of chemical substances.

Q.Are there currently any products on the market like it?

A.The RuptureSeal™ is a unique product to the marketplace. It represents a significant leap in safety and sealing approach not found in the competition. It incorporates many innovative design features not found anywhere else. This allows it to be the quickest and easiest sealing device available.
